SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

California Department of Public Health (CDPH)

- On 02/10/16, CDPH activated the JEOCuser43@cdph.ca.gov mailbox to capture and address questions regarding the Zika virus. The Medical and Health Coordination Center (MHCC) has been activated at Duty Officer level status.

Mavericks Surf Competition:

- On Friday 02/12/16 the Mavericks Surf Competition will be held, this is one of the premier surf competitions in the world, drawing top surfers from all countries.
- The surfing event is a one-day invitation-only competition held at the legendary Mavericks surf break near Half Moon Bay, about 20 miles south of San Francisco.
- The 24-surfer field from around the globe got the call Tuesday afternoon and will now get to the Northern California coast by Friday.
- NWS is predicting waves between 13 and 14 feet. But the waves could reach up to 25 to 30 feet, with the occasional breaker hitting the 35-foot mark. The contest was last held in 2014.
- There are currently no requests for assistance and no planned EOC activations, San Mateo will be monitoring

SITUATION SUMMARY

Weather of Concern

Northern California

- Beaches will be potentially hazardous through Saturday for portions of the Northern California coast.
 - Threat of sneaker waves as a westerly swell builds and will persist into Friday morning when the incoming swell peaks.
- Above average temperatures and dry conditions for Northern California, with a few sprinkles or showers across the northern mountains Friday.

Southern California

- High pressure will bring another day of near record temperatures today, with above normal temperatures continuing into early next week.
- Very dry conditions with elevated fire danger.
- Unseasonably hot temperatures for this time of year may result in heat-related impacts for certain groups, including the elderly, or those working or recreating outdoors.
- Elevated surf and strong rip currents Friday through Sunday.

Heat							
Tropical							

-  High Threat
-  Moderate Threat
-  Slight Threat
-  No Discernible Threat

Days 1-3 Precipitation Forecast

Precipitation (inches)

Thursday

Friday

Saturday

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

Showers will be over our area this morning. Shower coverage will increase this morning as the main part of the shortwave arrives, and radar is showing a lot more showers off the Northwest California coast moving our way. A possibility of some lingering showers this afternoon and evening as a weak cold front approaches. This cold front will move onshore tonight and Friday morning and bring light rain to most west side locations as it moves inland Friday.

Eureka weather:

Several weak frontal systems will bring occasional light rain to the area through Sunday. Monday and Tuesday high pressure returns before another system looks to bring rain and high elevation snow mid to late week.

Reno Weather:

Above average temperatures along with light winds will persist with high pressure over the region through the remainder of the week. Weaker valley inversions will allow for decent mixing today and Friday. There will be a slight chance of precipitation through the rest of the week, with the next chance for any precipitation next Wednesday.

Sacramento Weather:

There will be dry and mild weather through early next week, except for a slight chance of light showers across the northern mountains over the weekend. The next chance of precipitation across the whole north state is expected around the middle of next week. Daytime highs will be above normal through early next week dropping to closer to normal by midweek.

San Francisco Weather:

Dry pleasant weather will continue through the rest of the week. Large westerly swell will begin to impact the coast Thursday raising the risk of sneaker waves at area beaches.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will continue to bring dry weather to the central California interior through Tuesday with patchy night and morning fog in the San Joaquin valley. A weather system is forecast to move into the area with precipitation expected by Wednesday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will bring another day of near record temperatures on Thursday with above normal temperatures continuing into early next week. Low pressure may arrive by the middle of next week for a chance of precipitation and a cooling trend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

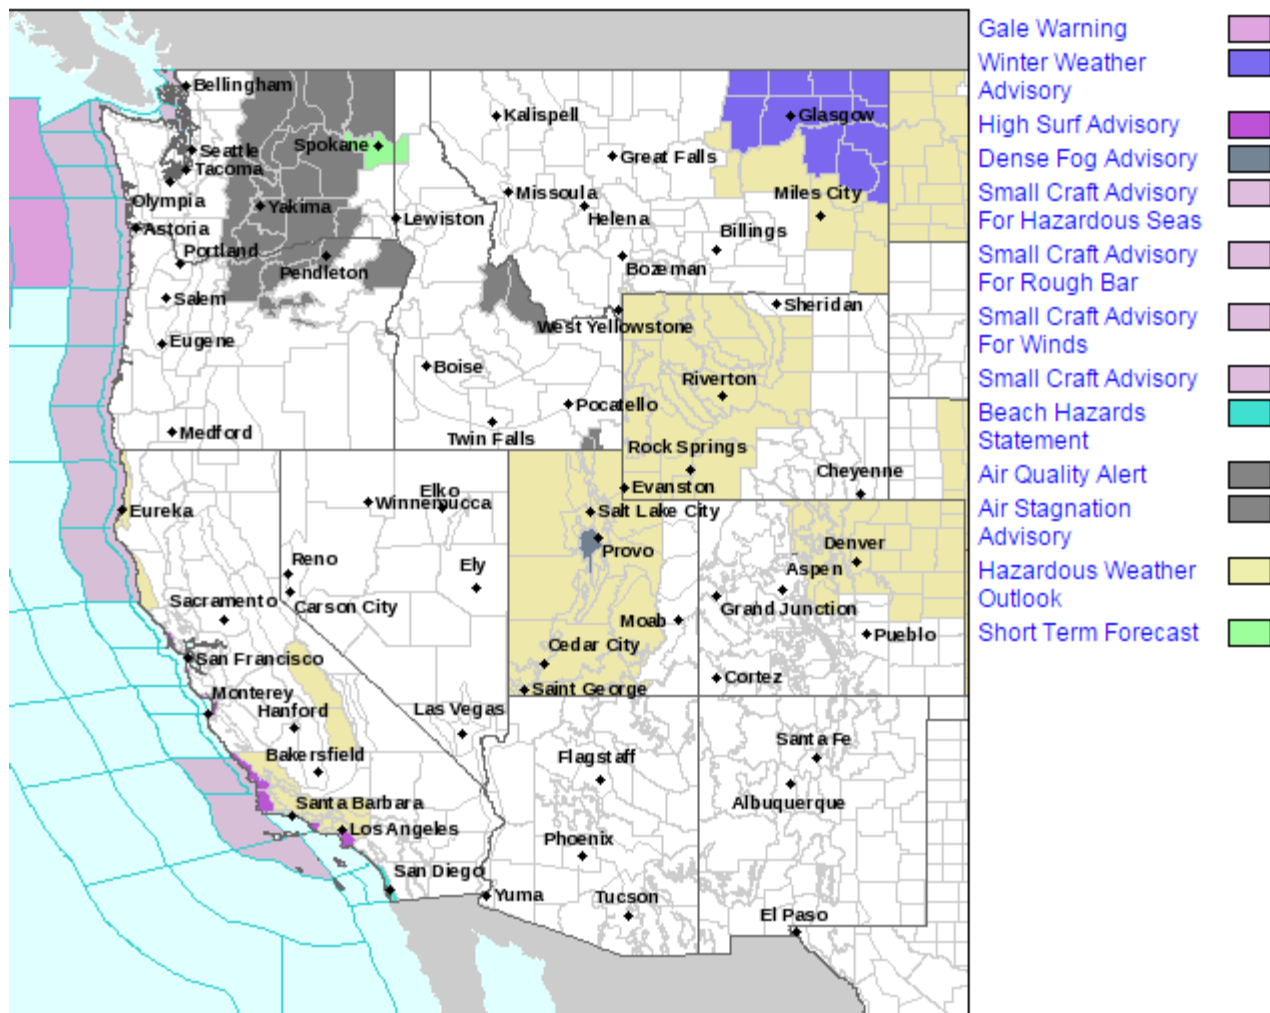

Fair and unseasonably warm weather will continue through Tuesday, under a strong high pressure ridge and weak offshore flow. Low pressure in the eastern pacific will break down the ridge Wednesday leading to a chance of rain.

Southeast California Weather:

Spring like weather will continue across the region into the weekend with dry and unseasonably warm weather expected. Scattered high clouds will pass through the area at times and locally breezy conditions.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

California Specialized Training Institute

CSTI Scheduled Training

Basic PIO and JIC/JIS (G290-291): This course is the first in a three part series of Public Information Officer Basic training. The course is designed for people who work with the media in times of crisis and day-to-day media relations. The program emphasizes the importance of developing a Public Information Officer (PIO) team, communications skills, leadership and working in a Joint Information Center using Joint Information Systems.

Participants engage in public speaking exercises and media interview sessions. Classroom and breakout sessions are information intensive and are designed to help participants apply principles and techniques taught in the discussions. Participants will work with representatives from the media and other agencies involved in crisis communications. The class includes certification in the FEMA Basic Public Information Officer Course (G290) and JIC/JIS (G291) courses.

Course Length: 32 hours
